Message from the President

Hello to all my fellow Fallbrook Quilt Guild members.

I hope your Halloween won't be too scary. We just returned from a visit to our families back in Ohio. The fall colors were beautiful but it is nice to get back here to sunshine and warmer temperatures.

As November begins and we start to think about the Thanksgiving holiday coming in a few weeks I'm sure you are all working on special projects, I know I am. Mine, unfortunately, are UFOs from years past. I will catch up someday. I know we are also thinking of what we're grateful for at this time of year. Family, friends, health, and home come to mind quickly. I want to also include my quilt friends from here and the many other states I've lived in. You are a special giving and caring group. You have a talent and love to share it unselfishly. Thank you all!

I look forward to seeing all of you at our next meeting on Thursday, November 3, 2022. The doors will open at 1:00PM and the meeting will start at 1:30PM. Please bring you projects to share with everyone.

Thank you again for being you and remember.....Gobble, Gobble 🐔

Enjoy your craft and appreciate your talent!

Sharon Boehm

Upcoming Programs and Workshops

Meeting Program **Thursday November 3 at 1:30 p.m.**
Fallbrook Community Center

Member-led Quilter's School House

We'll have several demo tables set up and will rotate around to each table in small groups. The demos will be helpful tips or quick projects that you can do at home.

Note: We host member-led meetings several times a year, and would like to see YOUR favorite tips/techniques or projects. Please let Karen or Ann know if you would like to present a short demo at one of our upcoming meetings.

Batting Needed

Teacher Request for Fabric

Fallbrook resident Sally Zepada is teaching an enrichment class to these fifth graders in a Vista school. I provided 24 nine patch kits and the students have really taken to it. Sally is in need of fabric for their next project, a machine sewn pillow case. Perhaps you have fabric which you are willing to donate, particularly something for a boy. Coordinated fabric for both the body and the cuff would be welcomed. Also, fabric for just the body would be welcomed. You may bring it to the November meeting or drop it off in the box on my porch. Width of fabric cuts for dimensions below are needed for each pillow case:

Body: 24'-27'

Cuff: 9"-12"

2148 Stone Castle; Gate code: #2148

Thanks, in advance.

Quilts of Love

FQG MEETING MINUTES, OCTOBER 6, 2022

Ann Turley and Karen Johnston, as Vice President co-chairs, led the meeting in the absence of President Sharon Boehm.

Tricia Voight, Treasurer, reported that the Guild had income of \$463, and expenses of \$1737 for renting the Community Center's room and for printing our updated brochures.

Speaking for Penny Bottomly, Ways and Means, Ann reported that Penny still needs donations of unfinished projects (UFOs) that members wish to purge from their sewing space, which will be offered for sale to other members. Members can hand them off to Penny before the meeting, or at the beginning of the meeting. Karen is accepting other donations.

Linda Rosensteel, Membership co-chair, reported that we now have 81 members, as well as seven guests attending the meeting.

Jewel Burke is our new Sunshine Chair, sending out cards to members who are ill, sad, or worse.

Dixie Johns reported that she distributed 41 Quilts of Love kits and received 59 finished quilts from members, all of whom are expected to contribute two small quilts per year for our Community Service mission, which enables us to maintain our nonprofit status with the State of California.

Karen Johnston, Programs co-chair, said that we will have member-led mini-workshops at our November meeting, and that she needs at least three more people to commit to teaching a skill. Contact her ASAP.

Our program speakers were the dynamic duo of Linda and Carl Sullivan, pattern and fabric designers for their company, Colourwerx. They presented a trunk show of the colorful modern/mid-century style quilts they've made, explained that their patterns always have the critical internal measurement of finished blocks, and gave us a multitude of tips for creating perfectly pieced blocks.
